

## Storage problems?

---

Discover how the latest SAN solutions from  
Itex and HP can improve your system efficiency.

---

30 September • 08:30 - 10:00 • Sefton Hotel

A light breakfast will be served

---

You are invited to this essential breakfast briefing,  
jointly hosted by Itex and Hewlett Packard.

This is an exciting opportunity for technology  
specialists on the Isle of Man to hear from Geoff  
Walton, a subject matter expert in this field, about  
the recent growth in SAN solutions. It will also

provide an insight into the broad range of solutions  
now available from Hewlett Packard.

Basic SAN and fibre channel terms and protocols  
will be explained, along with an overview of  
the design considerations behind the various HP  
platform options.

Places are strictly limited so book early to avoid disappointment.

Email [events@itexoffshore.com](mailto:events@itexoffshore.com) with the subject 'SAN register me'.
